# ND Philosophy

## Philosopher in Print

This month's 'Philosopher in Print' is Professor Therese Cory. Her article, "Aquinas's Intelligible Species as Formal Constituents", is available in *Documenti e Studi sulla Tradizione Filosofica Medievale*.

### Abstract

Aquinas's intelligible species have been widely interpreted as playing their crucial theoretical role in Aquinas's cognition theory in virtue of being what I call "psychological devices." With a comprehensive study of previous controversies about Aquinas's intelligible species, it argues that the well-known "realism vs. representationalism" debates actually amount to a relatively small disagreement within the "Psychological Device View." In reality, I argue, these debates miss the mark: The cognitive role of intelligible species in Aquinas can be completely understood in terms of their being forms of intellectual being--what I call the "Formal Constituent View."

## Get to know our Philosophers!

[Ross Jensen]

1. What would you sing at Karaoke night? *"Amarillo by Morning"*
2. What did you want to be when you were small? *I first aspired to be an architect who would only design zoos.*
3. If you could only eat one meal for the rest of your life, what would it be? *The meal would consist of grilled trout, grilled asparagus, and wild rice, with one or two pilsners to go along.*
4. What's the worst gift you've received? *A bathrobe that was colored in large black, red, and green patches*
5. Who would you want to play you in a movie? *Young Me: Timothy Olyphant; Old Me: Old Harrison Ford*
